***"We believe that people don't care how much we know,
until they know how much we care."***

*"I was sent to physical therapy for neck and left shoulder pain. When I started physical therapy my pain level was 6/10. Now after eight visits to Allcare my pain level is zero. My range of motion has improved. I am now able to turn my head further to the left with no pain; it is now a lot easier to drive. The staff at Allcare was so pleasant. If I should need to come back, I would not hesitate!
Thank you Allcare!"*

L.M. - Patient quoted on their physical therapy results at Allcare.

"I came to physical therapy because I has my second total knee replacement. The reason I came to Allcare was I was very pleased with the success of my first total knee replacement. I would not want to go to any other facility. The care of each person made all the pain a little easier to bare. I am doing so many things now that I couldn't do a the beginning like walking up and down stairs normally. I walk where I want to go with no aid such as a cane or walker. My thanks and appreciation go to Dan and his staff. They make you feel like one of the family. I will remember where Allcare is should I ever need to come back. Thanks again! "

J.F - Patient quoted on their physical therapy results at Allcare.
