Allcare-Rehab.com Since 1990 Dan Manfre, PT President

## We Care, We Listen & We Get Results

*Our goal is to provide quality outpatient physical therapy care close to home in a clean, well-operated and organized facility. We want to exceed our patient's and their physician's expectations. We believe that people really don't care how much we know until they know how much we care. We go out of our way to give patients the necessary time and attention it takes to get them well again fast. It is this untiring dedication to excellent care by our experienced and skilled professionals that has allowed Allcare the opportunity to grow and serve the Plant City Community since 1990. We know we owe our success to the patients and their physicians who have supported and encouraged us over the years. We look forward to our future growth and continued improvement in the level of physical therapy care we provide to our community.*

*"I was sent to physical therapy for treatment of radial nerve neuropathy affecting my right wrist and hand. When I started therapy my hand, fingers and wrist area were really tight and painful. After just a few sessions I started seeing a great improvement in my flexibility and grip. I have noticed throughout my sessions my hand and arm getting stronger. The staff has been really helpful and the therapists have been very informative and helpful as well. Thank you Allcare!"*

*L.F. – Patient quoted on their physical therapy results at Allcare.*
