## We Care, We Listen & We Get Results

Since 1990, Allcare has been treating patients with a variety of orthopedic injuries and conditions. Whether you have had joint replacement surgery, suffered an injury that has required surgical repair, or have pain and disability caused by degenerative changes (arthritis), our highly trained staff can help you regain your physical capabilities and independence. Our state of the art facility (including our indoor temperature controlled therapeutic pool) and experienced staff have both the knowledge and experience necessary to provide you with the best care available. Additionally, we will work closely with your physician to assure that the desired results are achieved.

Fall Prevention  
Vertigo  
Spinal Injuries

**"We believe that people don't care how much we know, until they know how much we care."**

"I was sent to physical therapy after having hip surgery on my left hip. After the second week of home recovery following the surgery and the first doctor's visit, I was referred to go through physical therapy for four weeks, three times per week. Allcare was recommended by a friend of ours who is a personal trainer, so I valued her recommendation. Going to Allcare was the best decision I made. The staff was very well trained, very professional, and friendly. My improvement was impressive, my strength returned very fast and before I realized, four weeks had gone by. I would not hesitate to recommend Allcare to anyone that needs therapy. I thank them all for their efforts."

M.E. ~ Patient quoted on their physical therapy results at Allcare.
